

Alternative Service Certification Form

California state laws require that commercial organizations and multi-family residential properties have recycling and organic collection programs in place. These laws include:

AB 341/Mandatory Commercial Recycling (MCR) requires commercial business or organizations that generate four (4) yards of solid waste per week, or multi-family residential properties of five (5) units or more, regardless of the amount of commercial solid waste generated to subscribe to recycling collection services or demonstrate diversion of recycling by alternative means.

AB 1826 & SB 1383/Mandatory Organics Recycling (MORe) is for all entities, regardless of the amount of solid waste generated. All entities are required to subscribe to organics collection services or demonstrate diversion of organics by alternative means.

The City of Oxnard allows a business, an organization and/or a multi-family residential property to arrange alternative means of compliance through **Back-hauling**, **Self-hauling**, or arranging for a **3rd-party** to transport materials to an approved facility. Annual reporting and re-certification is mandatory. Waiver applications are subject to staff approval. Completed applications should be sent to recycle@oxnard.org.

Organization: _____	Contact Name: _____
Phy Address: _____	Title: _____
Account Number: _____	Phone: _____
